PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code §413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Use of the Fee Guidelines*, effective May 16, 2002 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on October 4, 2004.

1. For the services involved in this dispute, the respondent reduced or denied payment with reason code:
 - 1 – The charges for this hospitalization have been reduced based on the fee schedule allowance. (Z695)
2. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 927.20. The Division therefore determines that this inpatient admission is a trauma admission and shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
3. Division rule at 28 TAC §134.1, effective May 16, 2002, 27 TexReg 4047, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas

Workers' Compensation Act, §413.011 until such period that specific fee guidelines are established by the commission."

4. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
5. Division rule at 28 TAC §133.307(g)(3)(B), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including "a copy of any pertinent medical records." Review of the documentation submitted by the requestor finds that the requestor has not provided medical records to support the services in dispute. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(B).
6. Division rule at 28 TAC §133.307(g)(3)(C)(i), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including a statement of the disputed issue(s) that shall include "a description of the healthcare for which payment is in dispute." Review of the submitted documentation finds that the requestor did not provide a description of the healthcare for which payment is in dispute. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(C)(i).
7. Division rule at 28 TAC §133.307(g)(3)(C)(ii), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including a statement of the disputed issue(s) that shall include "the requestor's reasoning for why the disputed fees should be paid." Review of the submitted documentation finds no documentation of the requestor's reasoning for why the disputed services should be paid. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(C)(ii).
8. Division rule at 28 TAC §133.307(g)(3)(C)(iii), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to send additional documentation relevant to the fee dispute including a statement of the disputed issue(s) that shall include "how the Texas Labor Code and commission [now the Division] rules, and fee guidelines, impact the disputed fee issues." Review of the submitted documentation finds that the requestor did not state how the Texas Labor Code and Division rules impact the disputed fee issues. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(g)(3)(C)(iii).
9. Division rule at 28 TAC §133.307(g)(3)(D), effective January 1, 2003, 27 TexReg 12282, applicable to disputes filed on or after January 1, 2003, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement." Review of the submitted documentation finds that:
 - The requestor's rationale for increased reimbursement from the *Table of Disputed Services* states that "The following clm was pd @ a 2 day peir deim rate as fair and reasonable we do not feel that this is fair nor reasonable for a \$7100.79 clm." [sic]
 - Although the requestor has not articulated a methodology under which fair and reasonable reimbursement should be calculated in the rationale for increased reimbursement, the requestor included a payment calculation worksheet advocating payment for "Outlier Diagnosis Series" at 75% of charges.
 - The Division has previously found that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."
 - The requestor does not discuss or explain how payment of the amount sought would result in a fair and reasonable reimbursement.
 - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.
 - The requestor does not discuss or explain how payment of the requested amount would ensure the quality of medical care, achieve effective medical cost control, provide for payment that is not in excess of a fee charged for similar treatment of an injured individual of an equivalent standard of living, consider the increased security of payment, or otherwise satisfy the requirements of Texas Labor Code §413.011(d) or Division rule at 28 TAC §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

10. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(g)(3)(B), §133.307(g)(3)(C), and §133.307(g)(3)(D). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
